

Dear aviation leaders, innovators, and industry partners, dear friends,

I am happy to invite you to the 2024 Passenger Terminal Expo & Conference to be held in Frankfurt, Germany, from April 16 to 18.

We, the entire Fraport Group, are honored to host this annual gathering of speakers and industry experts from around the world. It would be a great pleasure for us to welcome you to the Passenger Terminal Expo here in the fantastic city of Frankfurt.

This leading conference on airport technology, design and operations will provide you with plenty of opportunities to connect with other industry leaders and gain insights into the latest trends and innovations in aviation.

Following the recovery from the pandemic, staff shortages and the related operational difficulties have become one of the biggest challenges facing the airport industry.

The Passenger Terminal Expo offers the right forum for users and system providers to find innovative solutions for improving airports' operational performance and thus enhancing the customer experience. There has never been a time when our industry has been under so much pressure. But there has also never been a time when the entire aviation industry has been so innovative. So, let's seize this opportunity.

Together, we can shape a future where aviation is more customer friendly, more sustainable, and more accessible than ever before.

Don't miss out this opportunity to share the latest trends, innovations, and ideas in the airport industry. We are anticipating a productive and engaging Passenger Terminal Expo and look forward to welcoming you here in Frankfurt!

Yours sincerely,

Dr. Stefan Schulte
